Model : DR01

DVI Repeater

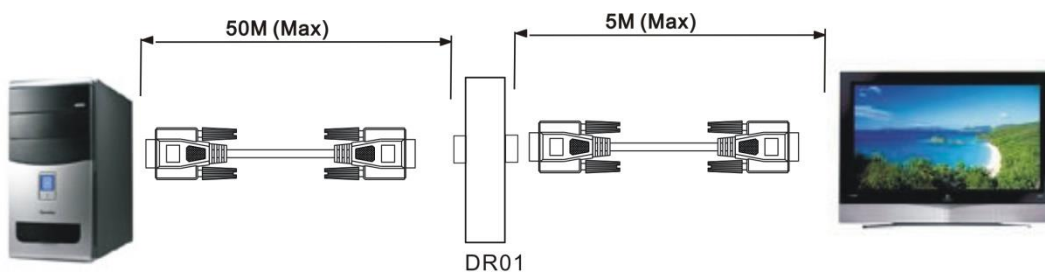

## Introduction

DR01 is a DVI repeater that extends the length of DVI cable to reach to a remote projector or monitor. It automatically equalizes and compensates for connected DVI cable losses. The repeater can also use an external power adapter to reach further distance up to 50M..

## Features

- Support Resolution up to 1080p & 1920 x 1200px.
- Signal extension up to 50M..

## Installation view

**Specification**

ITEM NO.	DR01
Support	
Max. Video Resolution	1920 x 1200@60Hz
Video Bandwidth	1.65 GHz
Transmission Distance	50M
Ports & Interfaces	
Video Input	1 x 29-pin DVI-I (Digital Only)
Video Output	1 x 29-pin DVI-I (Digital Only)
Power	
Power Supply	DC 5V 1A
Power Consumption	220mA (Max)
Ambient Temperature	
Operation	0 to 55°C
Storage	-20 to 85°C
Humidity	Up to 95%
Physical Characteristics	
Dimensions	67 x 53 x 27mm
Weight	110g
